

VERTICAL DEFLECTORS KIT

These instructions are an integral part of the booklet of the appliance on which the accessory has been installed. Please refer to the GENERAL SAFETY INFORMATION and PRECAUTIONS in this booklet.

KIT DESCRIPTION

The vertical deflectors kit allows you to change the air output angle in a horizontal direction in order to improve the distribution. It is identified with various codes depending on the model of the air heater used with it.

KIT CODE	ACU
4155626	12M-13M
4155628	22M-23M
4155630	32M-33M
4155632	42M-43M
4155634	52M-53M
4155636	62M-63M
4155638	72T-73T
4155640	82T-83T
4155642	92T-93T

PACKAGE CONTENTS

Description

Q.ty

Vertical deflector grilles	1 (mod. 12M – 73T) 2 (mod. 82T – 93T)
Self-tapping screw	3 (only mod. 82T – 93T)
Instructions	1

mod. 12M-73T

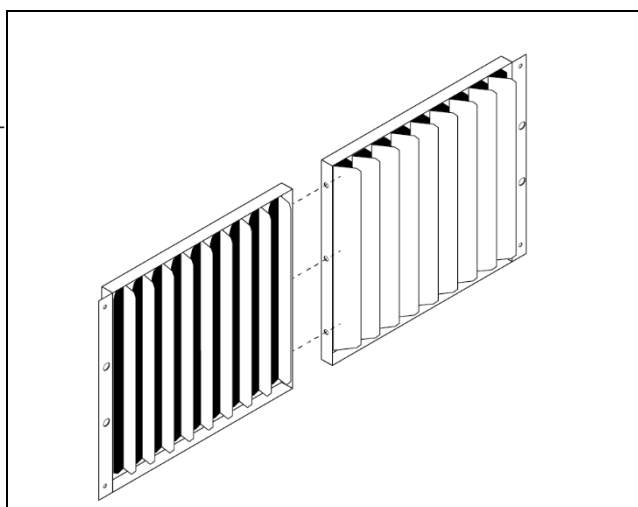

mod. 82T-93T

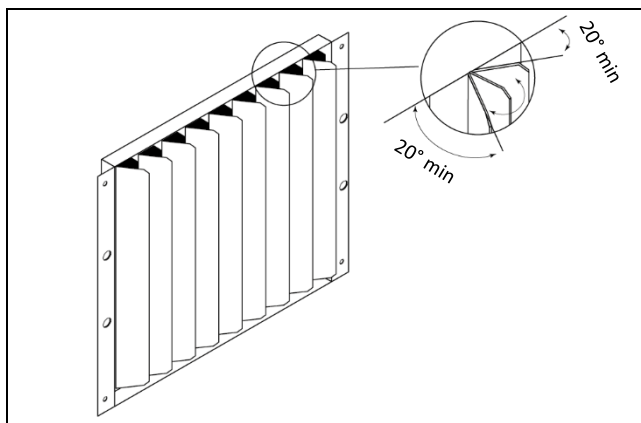

INSTALLATION

The assembly should be carried out by qualified personnel

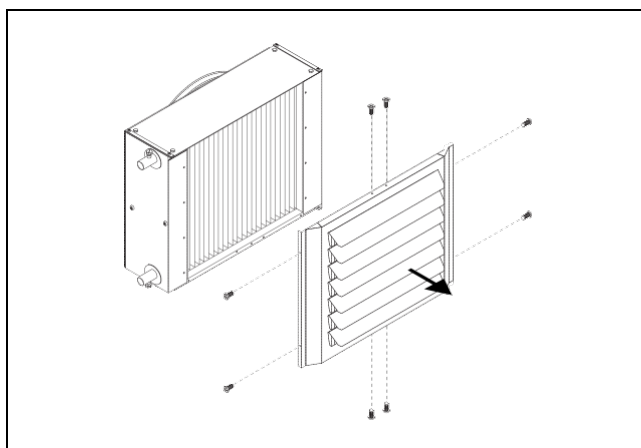

- Assemble the vertical deflector grilles (only mod. 82T-93T) using the screws supplied

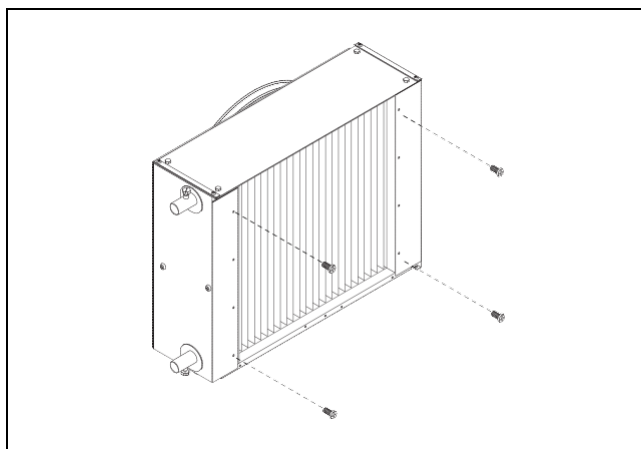

- Manually open the vertical deflectors to get the desired angle of opening

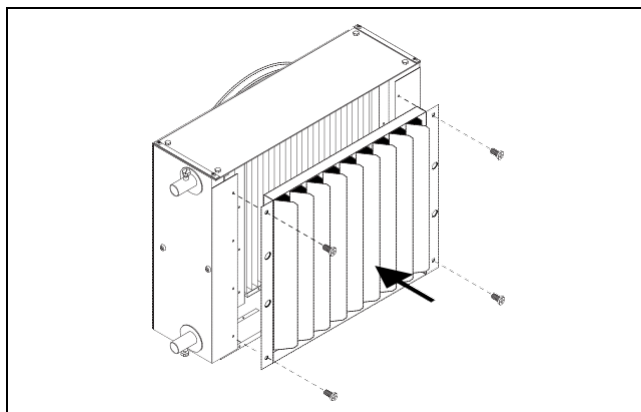

- Remove the horizontal deflector grille

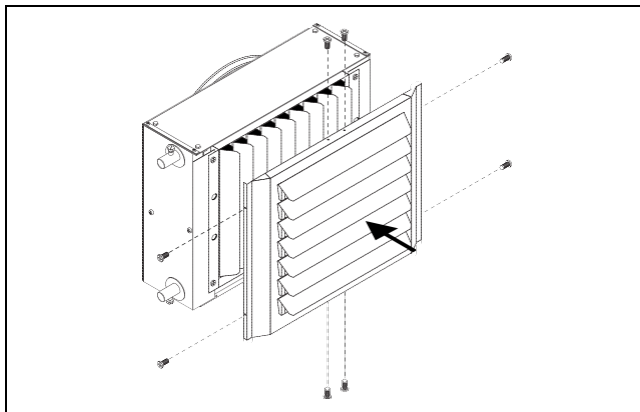

- Remove the 4 self-tapping screws indicated in the figure

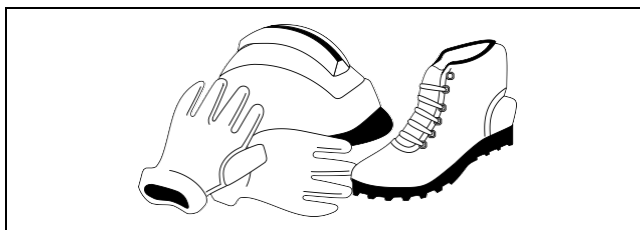

- Put the vertical deflector grille in place and fix it with the 4 screws that were removed

- Put back the horizontal deflector grille proceeding in the reverse order

-  Use adequate personal protection equipment (gloves, etc.)

CONTROL

When the installation is finished:

- Check the air is distributed correctly and if necessary correct it by changing the angle of opening of the vertical and/or horizontal deflectors.
